FUHR Door Locks 803

- **Suitable for timber & composite doors**
- **Latch and deadbolt only**
- **Available in 35mm and 45mm backsets**
- **"FUHR Silver" protective finish**

The 803 is a universal lock which can be used on both internal and external doors. The deadbolt throws 20mm, helping to give a more secure locking point on timber & composite doors.

The 803 lock with a 35mm backset has a 16mm faceplate with square ends designed for use on PVC-u doors.

The 803 lock with a 45mm backset has rounded ends and 20mm faceplate, designed for use on timber & composite doors.
