

# Slotvent 2000DF, 4000DF, 4000DF & 8000HDF

- Unique flyscreen/external louvered grille
- Available in a range of colours including mixed internal and external
- Stylish design
- Front operated
- 8000mm<sup>2</sup> version

The stylish D-type range of slotvents provides unobtrusive ventilation for PVC-u or timber windows. The patented design of the fly screen's hydro-shedding fins ensures rain falls away from the window frame. HD Vents require an 18mm high slot and can then be used where there is a constraint on slot width.
