

Defender Security Locking Bar

A high security lock designed to exceed BS7950, the industry standard for window security. The Defender's durability has been proven in cycle tests to exceed 30,000 cycles, and corrosion resistance to more than 500 hours salt spray test. It is made from austenitic stainless steel.

Installation is quick and straightforward with minimal number of screw fixings, and no cropping or bar adjustment.

The Enhanced Defender locking bar is available in both 20mm and 22mm backsets, also with 2 mushroom height variants of 7.7 and 9mm.

Profile specific keeps are available for leading profile systems, please refer to page 113.

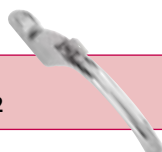

- Quick to fit
- 10 year guarantee
- Secured by Design
- Tested to BS7950
- Durable and abuse tolerant
- No cropping or bar adjustment
- Minimum screw fixing required
