- Made from aluminium
- Easy operation to open
- Positive stop at 90°
- Automatic deadlock – button release
- Available inline or cranked
- 5 finishes available

The Tokyo espagnolette handle is made from cast aluminium to ensure the colours match other Hoppe handle ranges. The handle is also available with a cylinder cap for non-locking operation, and with a green cap for indicating the possibility of exit in an emergency.

Please note: full part number is achieved by replacing ** 2 digits to define spindle length e.g. Tokyo Espagnolette Inline white 15mm spindle would be 42.2850.30.215

Spindle options available:

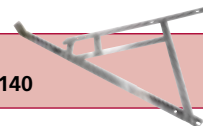

10mm, 15mm, 20mm, 25mm, 30mm & 40mm

The handle is easily converted to non-locking/egress simply by adding the optional push in caps.

Enhanced Security Handle
See page 53

Friction Stays
See pages 123 – 140

- BBA assessed
- Positive stop
- Push to unlatch
