

Lockmaster Croppable Window Shoot Bolts

paddock

- Croppable rods – 4 sizes available
- Sits neatly in the eurogroove
- One piece 'combined' corner keep
- Adjustable mushroom cams
- Adjustable shoot bolt travel
- Variable handle height
- Secured by Design

The Lockmaster shoot bolt has been designed for speed of assembly and ease of use. Engineered for reliability and manufactured in the UK to be competitive with other locking systems. Using croppable parts significantly reduces stock items required.

Each lock requires one Gear Box and two rods. Profile specific keeps are available for leading profile systems, please refer to page 114 or call our Sales Office for recent additions.
