

Non Standard Doors Tall and Small

One-piece multi-point door locks as illustrated on pages 24 – 27 are designed to suit standard height doors up to 2200mm, and are designed for a handle height in the region of 1050mm.

Where doors are particularly tall, or shorter than usual, FUHR have provided components that satisfy even the most unusual requirements.

Description	Part No.	Box Qty	Door height		Handle height	
			Min	Max.	Min.	Max.
Low Door Height 3 Piece Assembly, 2 Rollers, 2 Mushrooms, Latch and Deadbolt
