

# REVERSE ESPAGNOLETTE

## KEY PRODUCT FEATURES

- Stainless steel construction for ultimate corrosion resistance.
- Simple to fit with one piece assembly.
- Opposing reverse action cams give high security locking.
- Compression adjustable locking cams.

# REVERSE ESPAGNOLETTE

## Product Specification

**Carl F**  
International

The Reverse Espagnolette from Carl F, is suitable for most systems, full depth and shallow euro-grooves. The espag can be fitted in seconds with just a one piece assembly. Once in place, a unique localised reverse action allows the cams to locate from both directions into a single keep to give a very secure locking action.

Manufactured predominantly from stainless steel to offer the highest corrosion resistance and strength.

## TECHNICAL SPECIFICATION

<b>SIZE RANGES</b>	Size 1 = 320mm
	Size 2 = 500mm
	Size 3 = 750mm
	Size 4 = 1000mm
	Size 5 = 1250mm

## TESTING & ACCREDITATION

UKAS laboratory tested to BS EN 1670: 1998 and exceeded grade 4 classification for ultimate corrosion resistance.

Tested to the equivalent of BS 7950 across a comprehensive range of window systems.

The Reverse Espag is currently not stocked at Carl F, stock will be ordered upon sale.
