

FUHR Door Locks Single Hinged Timber & Composite Doors

859 Type 3

803

- Designed for flush fitting doors
- Guaranteed accuracy
- High quality materials
- Special keeps
- High security
- "FUHR Silver" protective finish

Many of the products illustrated elsewhere in this section are suitable for use on flush fitting doors – timber, composite or even steel. However, FUHR and Carl F Petersen recognise the different requirements that these products may have, and a range of special products have been developed for use on timber and composite doors.
