Securistyle Vector Excluder

The Vector Excluder provides increased security on the hinge side of windows, by preventing the side of the window from being jemmied. This helps many windows to exceed requirements of BS7950 (specification for enhanced security performance). The Vector Excluder will offer additional security to windows which offer the egress and easy access feature.

<i>Description</i>	<i>Part No.</i>	<i>Box Qty</i>
Excluder Security Device		
ASD1 – 13mm (2 pairs)	44.4600.00.100	50
ASD2 – 17mm (2 pairs)	44.4600.00.200	50
